

## Algorithm to compute the area of a rectangle

Step 1. Start

Step 2. Initialize length=0,width=0,area=0

Step 3: Input length,width

Step 4. Compute for the area of the rectangle: length,width

area= length x width

Step 5. if the area > 50, then print "The Area is greater than 50" ,  
otherwise , if area < 50 , then print "The Area is less than 50".

Step 6. End
